

Agricised Long Life Post Technology

Lasts 3 x longer, comes with no quibble warranty and saves money over 15 years

Agricised Long Life Post Technology

Lasts 3 x longer, comes with no quibble warranty and saves money over 15 years

**LASTS
3X
LONGER**

AGRICISED
INCISIONS ALLOW
TREATMENT TO
PENETRATE DEEP
INTO THE POST

**HUGE SAVINGS IN REPLACEMENT MATERIALS
& LABOUR COSTS OVER EXTENDED LIFETIME**

Always specify Agricised!

- Costs only 4% more than non-Agricised on initial installation!*
- Save £4,500+ over the life of your fencing

15

**Peace of mind no quibble
15 year warranty**

M&M Timber's market leading Agricised range of timbers feature a scientifically designed incising process for increased protection – a virtual 'zone of confidence' – at the critical area where the post is at most risk of decay.

Agricised fencing products are the result of years of research and development to provide the agricultural sector with an affordable product that offers top performance for in-ground applications.

During production, the machine rounded timbers pass through a purpose designed incisor process that adds a ground contact band of consistent and uniform incisions to a depth of up to 6mm along a third of its length, which includes the vulnerable decay zone. These incisions allow a deep penetration of preservative protection that meets Use Class 4 (UC4) BS8417 ground contact zone requirements. The process also serves to ease surface tension and reduces the incidence of surface cracking.

- Agricised unique incising technology delivers an effective zone of confidence in the area prone to decay.
- 15 year anti-rot warranty* – no quibble replacement policy in the event of a post failing due to rot
- Optional 30 year warranty available on custom orders
- Pressure treated using a preservative system that offers a greater level of protection
- Agricised pattern of incisions approved by the Building Research Establishment (BRE)
- Industry award of quality from the Wood Protection Association (WPA)
- Anti-twist four sided point
- New online warranty registration system please see www.mmtimber.co.uk/warranty

*Lasts three times longer than non agricised industry standard equivalent.
Calculations based on 500 metres of fencing over 15 year lifetime. T&Cs apply. See www for details.
