

A complete range of **landscaping**timber

A major supplier of timber landscaping products to local authorities, environmentalists, landscape architects and property developers, M&M Timber continues to lead the field with a range of high performance products with desired service life options of 15 or 30 years*.

Unilog Pro™ timbers have been specified for some of the most prestigious and adventurous landscaping projects undertaken in the UK. Acknowledging the beauty of natural, machine rounded timber, specifiers have used Unilog Pro in landscape designs at theme parks, leisure parks and for a wide range of local authority projects.

Providing a long lasting durable retaining barrier against earth, Unilog Pro machine rounded timbers blend in perfectly with the natural environment. The material is easy to work with and offers the flexibility to meet a variety of landscaping design requirements.

THE DESIGNER'S CHOICE

M&M Timber's Unilog Pro landscaping timbers are manufactured from specially selected pine timbers and pressure treated in accordance with BS8417 using the latest in Celcure preservatives - the perfect complement for a diverse range of landscaping applications.

Unilog Pro landscaping timber is the recognised and trusted building material for a diverse list of landscaping applications including:

Unilog Pro is ideal for:

- Earth retaining walls
- Palisading
- Border edging and pathways
- Ornate bridges
- Raised flower beds
- Playground amenity projects.

Unilog Pro timbers are perfect for creating innovative landscaping features for gardens, leisure facilities such as holiday centres, theme parks and golf clubs, plus a wide range of commercial applications. Using timber in this way provides a natural, sustainable, flexible and cost effective method of landscaping for all types of projects.

15 years desired service life

30 years desired service life

Recommended for all commercial applications, Unilog Pro landscaping timbers are available with a choice of desired service life of 15 or 30 years*.

M&M Timber offer a complete bespoke machining service to meet any special design requirement, including a laser 'branding' service for individual name styles or corporate logos. With over 30 years' experience, the company's in-house team of skilled craftsmen are also able to create bespoke structures to clients' own design layouts, which can then be supplied in kit form ready for on-site installation.

A comprehensive design and installation guide for Unilog Pro is available from the M&M Timber website.
