

A warm and inviting interior of a log cabin. The walls are made of light-colored wood with a visible grain. A string of warm white LED lights hangs across the top. In the foreground, a dark grey sofa is adorned with several pillows, including one with a star pattern and another with a floral design. A fringed blanket is draped over the sofa. To the right, a black tripod floor lamp with a white drum shade stands next to a small wooden side table. On the table, there is a white candle in a glass holder and a woven basket. A large, round, patterned pouf sits on the floor in the foreground. The floor is covered with a patterned rug. The overall atmosphere is cozy and rustic.

# Log Cabins.

Whether you need the extra living space, room for a gym or even a home office, our log cabins are a natural choice. Manufactured from kiln-dried timber, a process that extracts moisture and reduces the risk of splitting and warping, these natural timber constructions will look great in any garden environment.

# FOREST GARDEN AND M&M TIMBER LOG CABIN BROCHURE 2020

A log cabin will transform your garden as well as giving you the space and freedom to enjoy the things you love.

## ENTERTAIN AND MAINTAIN

We know you'll be keen to start entertaining and using the space straightaway, but we strongly advise applying a solvent-based preservative treatment inside and outside soon after assembly. As the UK has a very wet climate it is important to ensure that the timbers remain dry and protected until such time as a treatment is applied.

Whilst the timber we use will change colour over time, simply re-apply a colour-based timber treatment regularly to maintain the look. Timber is a natural material which will shrink and expand due to moisture content within wood and the changing weather conditions. Any extreme changes should revert back over time.

Visit our website to view videos on how to prepare a base and step by step guides to building your cabin.

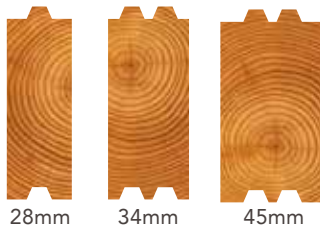

## PRECISION ENGINEERED

Our precision-engineered logs are manufactured with chalet-cut corners and a 6-sided joint to reinforce stability against the UK's wind and rain.

## SUSTAINABLE TIMBER

The timber we use is slow grown Nordic Spruce, clear from the tight growth rings on the logs.

## AVAILABLE THICKNESSES

Our log cabin range is available in three log thicknesses.

## ROOFS AND FLOORS

The roofs and floors in all our cabins are constructed from kiln-dried Tongue & Groove boards. Different roof felt options are available. We recommend the roof options that include underlay.

## DOORS & WINDOWS

All models come with adjustable door hinges and mortise lock mechanisms as standard, with opening windows available on most. Check specific models for details.

The doors on all Forest Log Cabins all have fixed windows. While some models are single glazed or have the option of single or double glazing, most are double glazed. All glass is toughened for safety and opening windows feature tilt & turn opening mechanisms.

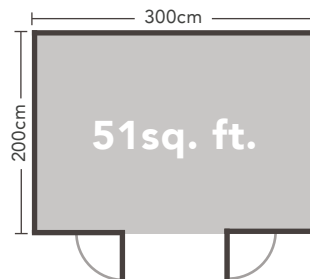

Log Cabin home delivery lead time up to 4 weeks

## The Harwood - 3m x 2m

220(h) x 320(w) x 232(d)cm with overhang

Windows:	None
Doors:	Double
Construction material:	28mm machined logs
Glazing:	Single glazed toughened glass
Floor construction:	19mm Tongue & Groove
Roof construction:	19mm Tongue & Groove
