# The professionals' choice for play timber

M&M Timber is the UK's leading manufacturer of machine rounded timber products and a key supplier to the agricultural, utility, commercial, landscaping and play sectors.

The PlayReady commercial portfolio of products and timber components opens up exciting new possibilities. Specifically designed for outdoor leisure application, it enables innovative design projects that combine flexibility with durability.

The range includes everything required from the timber, metals, ropes to fixings, all packaged with easy to follow assembly and installation guides.

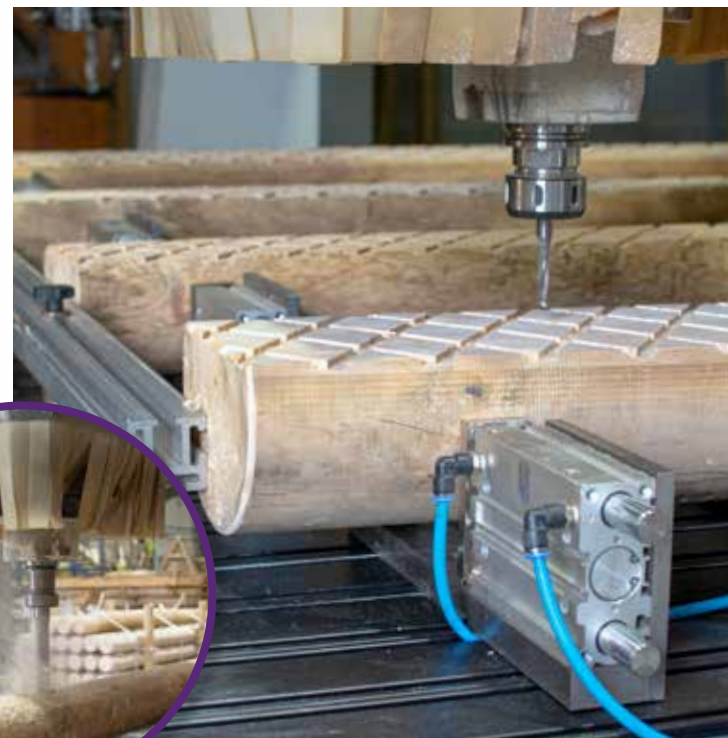

## Why Choose PlayReady:

- UK designed and manufactured
- Manufactured using PlayGuard timber
- Radiata Pine renowned for low split properties
- Range includes metals, ropes and fixings
- Fully EN1176 compliant and independently tested
- Delivered direct to site with installation guides
- Dispatch options including 24hrs\*
- Secure online portal to access product specification, images, CAD drawings and sales collateral
- Warranties are available across the portfolio from 1 year up to 15 years

# State of the art CNC machining technology

M&M Timber provide specifiers and playground equipment companies with a variety of timber products and components to help them design and construct innovative and educational play spaces.

M&M Timber is at forefront of machining technology with state of the art CNC machinery. This allows us to deliver innovative new and exciting timber components.

# Outdoor Modular Gazebos

The range of modular gazebos and pergolas are ideal for the outdoors and provide the perfect setting for external learning space or shelter.

Manufactured using premium PlayGuard Radiata timbers which are kiln dried and sanded offering a smooth and splinter free finish.

The square, hexagonal and extended hexagonal Gazebo range is available in a choice of six different sizes, with a timber roof featuring a unique waterproof lining providing the perfect cover from the elements.

Large Square Gazebo

Gazebos and Pergolas are available with standard timber or alternative steel feet

Standard Extended Hexagonal Gazebo

# Outdoor Modular Pergolas

The Pergola range is supplied in lengths of up to 20m and four depth options of 2m, 3m, 4m and 6m.

The timber roof has two add on options that can be selected, chose from either a Polycarbonate roof or a Fabric roof to create shelter from the elements.

Polycarbonate roof including guttering

Fabric roof

## Design your Building in Six Easy Steps

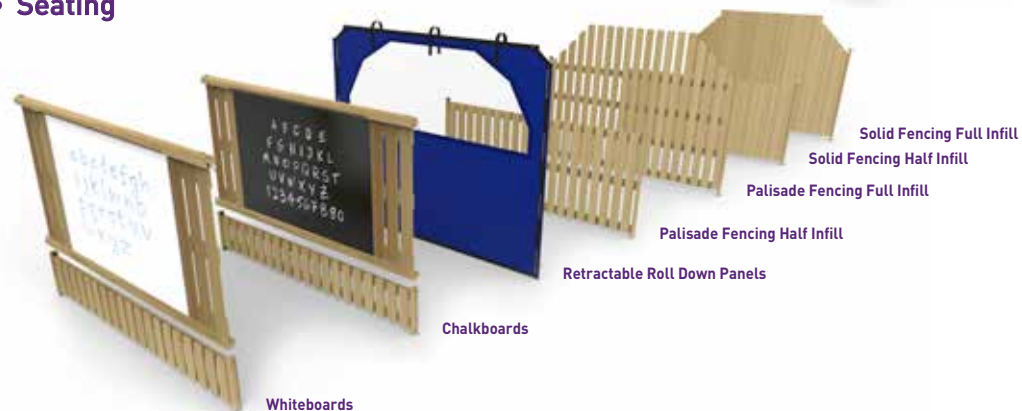

- Step One, pick: ●—● Gazebo or Pergola
