PRESTIGE SCALLOPED POST AND RAIL FENCING FROM M&M TIMBER

Combining good looks with an outstanding specification, M&M Timber's Prestige scalloped post and rail fencing is an all time favourite with professional landscape and fencing contractors, land owners and in equestrian circles.

With a 15 year warranty, M&M's Prestige scalloped post and rail fencing sets new standards in long term economics of boundary fencing.

Strong and elegant, with chamfered tops, the Prestige scalloped post and half-round rail has become the top choice for high end landscaping and boundary fencing throughout the UK. Ideally suited for public leisure areas, such as heritage sites, woodland walks and theme parks, Prestige scalloped post and rail fencing is also an established favourite in equestrian circles and is widely specified for secure stabling enclosures, ménages and in sporting venues.

M&M Timber's Prestige scalloped fencing is highly recommended by professionals for its ease of installation and versatility, offering premium quality rails and two, three or four rail scalloped post options. The four-rail option in particular, is often specified for equestrian stud farms to eliminate the risk of young foals escaping and at zoos and country parks to contain smaller animals. It's smooth surface reduces any contact risk of harm to both public and livestock.

- Combines elegant good looks with inherent strength
- Specially selected kiln dried redwood timbers for the ultimate quality product
- Pressure treated preservative protects against insects and fungal decay
- Peace of mind 15 year no quibble warranty
- Huge maintenance cost savings over extended service life
- Range of sizes and rail options for any application
- Chamfered posts and smooth contact surfaces for added safety
- Quick and easy to install
