Agricultural Fencing

M&M Timber's highly acclaimed Agricised range of **machine rounded timbers** feature a scientifically designed incising process for increased protection – a virtual 'zone of confidence' – at the critical area where the post is at most risk of decay. The agricised incisions allow **deeper penetration of the wood preservative** to provide more effective and consistent protection.

- ✓ 15 year anti-rot warranty* – no quibble replacement policy.
- ✓ Pressure treated using a preservative system that offers a greater level of protection
- ✓ Agricised pattern of incisions approved by the Building Research Establishment (BRE)
- ✓ Industry award of quality from the Wood Protection Association (WPA)
- ✓ Anti-twist four sided point

*Terms and conditions apply.

DeerGuard provides a high-performing timber-fencing solution for boundary fencing across agricultural land, country estates and parks.

The range includes stakes, struts and strainers available in both a Machine Round and Morbark peeled option, both with clean four-way anti-twist points and are produced from specifically slow grown Pine. Timbers are kiln-dried to ensure moisture is below 30%. This ensures full sapwood penetration and maximum loading of preservative during the pressure treatment process. DeerGuard can be treated to standards which carry either a 15 or 30-year warranty.

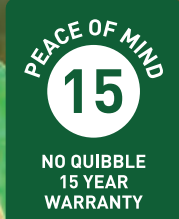

Scalloped Fencing

Combining ultimate good looks with a superb specification, Prestige scalloped post and rail fencing the top choice for high end landscaping and boundary fencing throughout the UK.

- ✓ Elegant good looks with inherent strength
- ✓ Scalloped posts with a choice of two, three or four rail options
- ✓ Chamfered tops and smooth contact surfaces for added safety
- ✓ No quibble 15 year warranty for total peace of mind
- ✓ Manufactured using specially selected kiln dried timbers
- ✓ Pressure treated for long life

Playground Timber

PlayGuard timbers have long been the No. 1 choice for use in playground equipment, educational and other outdoor leisure applications.

Specifically designed using Radiata pine, which has inherent low-split properties and thereby minimises finger traps, PlayGuard timbers are sanded, kiln dried and pressure treated with preservative for durability and long service life. With a choice of standard or higher grade premium ranges and a 15 year* service life warranty, the PlayGuard timber range along with bespoke component machining services, offers specialist manufacturers of play and outdoor leisure equipment tremendous scope for imaginative custom made projects.

- ✓ Cutting & Angle Cutting
- ✓ Side Angle & Top Scalloping
- ✓ Drilling & Counterboring
- ✓ Slabbing & Chamfers
- ✓ Pencil Top, Dome Tops, Routing
- ✓ Blind Mortice, including Top Scallop
- ✓ Etching & Engraving
- ✓ X-Hatching & Cross Hatching

Landscaping Timber

Unilog Pro timbers have been specified for some of the most prestigious and adventurous landscaping projects undertaken in the UK. The natural timber blends in with the surrounding environment providing a durable natural retaining barrier. The material is easy to work with to meet a variety of landscaping design requirements.

M&M Timber's Unilog Pro landscaping range is the recognised and trusted building material for a diverse list of landscaping applications.

- ✓ Earth retaining walls
- ✓ Pathways, steps
- ✓ Palisading
- ✓ Ornate bridges
- ✓ Border edging
- ✓ Raised flower beds

Recommended for commercial applications, Unilog Pro timbers are pressure treated in accordance with BS8417 and are available with a choice of desired service life warranty of 15 years or 30 years*.
