

# Agricultural Fencing

## How to register your warranty

Place your order with your local timber stockist.

Your order will be confirmed by your timber stockist and they will supply the M&M Timber Warranty Card for the relevant product(s) when your order is delivered or collected.

On receipt of delivery and installation of the fencing timbers you will need to register your warranty online with M&M Timber.

Register your warranty online within three months of purchase by visiting the M&M Timber website for information on the warranty, terms and the registration form.  
[www.mmtimber.co.uk/warranty](http://www.mmtimber.co.uk/warranty)

Complete the Warranty Registration Form by adding your details, date of purchase, stockist and the unique reference number from the warranty registration card. For each product installed you need to add the quantity on the form and submit. The warranty will be activated for the products registered and period of warranty.
